AGRICULTURE BIOPESTICIDES

INTEGRATED PEST MANAGEMENT

BIOLEP

Technical Name : *Bacillus thuringiensis* var. *kurstaki*

Formulation : WP

Activity : Lepidopteran caterpillars, *Helicoverpa*, *Spodoptera*, *Plutella*, Borers, Hairy caterpillars, Cut worms, Army worms, Leaf rollers & miners, Skeletonizers & Defoliators.

BIORIN / KARGAR

Technical Name : *Beauveria bassiana*

Formulation : WP/AS

Activity : *Helicoverpa*, *Spodoptera*, *Plutella*, Leaf borer, Hairy caterpillars, Mites, Spider mites, Whiteflies, Aphids, Scale insects, Locusts & Colorado beetles.

BIOLINE / VERTI-STAR

Technical Name : *Verticillium lecanii*

Formulation : WP/AS

Activity : White fly, Green plant hopper, Thrips, Mealy bug, Brown plant hopper, Leaf miner, Aphids, Mites, Jassids.

BIOMET / ANKUSH

Technical Name : *Metarhizium anisopliae*

Formulation : WP/AS

Activity : White Grubs, Termite ;Cut worm, Caterpillars, Semiloopers, Sucking pests, Mealybugs & Aphids, Locusts & Colorado beetles.

NO MITE

Technical Name : *Hirsutella thompsonii*

Formulation : WP/AS

Activity : Various type of crop mites – Scarlet, purple, red spider mite etc.

BIOVIRUS-H

Technical Name : NPV of *Helicoverpa armigera*

Formulation : AS

Activity : Important tool to control *Helicoverpa armigera* resistant to chemical pesticides.

BIOVIRUS-S

Technical Name : NPV of *Spodoptera litura*

Formulation : AS

Activity : Important tool to control *Spodoptera litura* resistant to chemical pesticides.

BIONEMATICIDES

NEMATO CURE

Technical Name : *Bacillus firmus*

Formulation : WP/AS

Activity : Root-knot nematodes, Reinform nematodes, Cyst nematode, Golden cyst nematodes, Citrus nematodes, Lesion nematode of various crop plants.

BIONEMAT / NEMATOR

Technical Name : *Paecilomyces lilacinus*

Formulation : WP/AS

Activity : Root-knot nematodes, Reinform nematodes, Cyst nematode, Golden cyst nematodes, Citrus nematodes, Lesion nematode of various crop plants.

BOTANICALS

NEEMARIN

Technical Name : *Azadirachtin indica*

Formulation : EC

Concentration : 300, 1500, 3000, 10000 & 50000 ppm

Activity : Repellent, Antifeedant, Insect growth regulator, Oviposition deterrent & Insecticidal activity.

SOIL BOOSTER

Technical Name : *Karanjin*

Formulation : Cake/Tablets

Activity : It improves soil health, fertility, soil texture, Soil pH, Insect pest, disease and nematodes.

BIOFUNGICIDES/BIOBACTERICIDES INTEGRATED DISEASE MANAGEMENT

BIOMONAS / SHIELD PLUS

Technical Name : *Pseudomonas fluorescens*

Formulation : WP /AS

Activity : Bacterial wilt, Black rot, Bacterial spot, Sheath blight; Blast; Anthracnose, Powdery and Downey mildew, Panama wilt, Sigatoka, Bacterial leaf spot. Also act as PGPR

BIODERMA / PROTECTOR

Technical Name : *Trichoderma viride*

Formulation : WP/AS

Activity : Root rot, Stem rot, Damping off, *Pythium*, *Rhizoctonia*, *Schlerotinia*, *Fusarium* and *Verticillium* wilt. All types of Leaf spot & Leaf blight.

BIODERMA-H / BARRIER

Technical Name : *Trichoderma harzianum*

Formulation : WP/AS

Activity : Root rot, Stem rot, Damping off, *Pythium*; *Rhizoctonia*, *Schlerotinia* *Fusarium* and *Verticillium* wilt, all types of Leaf spot & Leaf blight.

BIOSUBTILIN / ROG RAKSHAK**Technical Name :** *Bacillus subtilis***Formulation :** WP/AS**Activity :** *Fusarium* & *Verticillium* wilt, Macrophomia, Damping off, *Pythium*, *Rhizoctonia* (Black scurf of Potato) Root rot, Leaf spot, Powdery and Downey mildew. Bacterial spot & Bacterial leaf blight.**ARMOUR****Technical Name :** *Ampelomyces quisqualis***Formulation :** WP/AS**Activity :** For control of Powdery mildew in pulses, Vegetables, Fruits & Ornamental crops.**BIOFERTILIZERS** INTEGRATED NUTRITION MANAGEMENT**MYCO RISE****Technical Name :** VAM -Vesicular Arbuscular Mycorrhiza**Formulation :** GR/WP**Activity :** Promotes nutrient uptake efficiency mainly Phosphate, controls soil pathogen & improve soil pH. It also improves uptake of phosphate and other essential elements, impart disease resistance, extension of plant root system.**SUGAR PLUS****Technical Name :** *Acetobacter* spp.**Formulation :** SL/GR/WP**Activity :** Endophytic bacteria help in nitrogen fixation used in soil and foliar application.**BIOAZOTO / BHOOMI RAKSHAK****Technical Name :** *Azotobacter***Formulation :** SL/GR/WP**Activity :** Nitrogen fixing bacteria & PGPR.**BIOSPIRILLUM****Technical Name :** *Azospirillum***Formulation :** SL/GR/WP**Activity :** Nitrogen fixing bacteria in non-leguminous crops & PGPR.**BIOPHOS / GETPHOS****Technical Name :** *Bacillus megaterium* var. *phosphaticum***Formulation :** SL/GR/WP**Activity :** Excellent plant growth promoter; improve availability of Phosphate and other micronutrient to plants, improve soil pH. Also used in soil reclamation programme.**BIOPOTASH / POTASH-CURE****Technical Name :** *Frateruria aurentia***Formulation :** SL/GR/WP**Activity :** Improve potash uptake in plant, improve color, quality & shelf life of farm produce. Also improve resistance to frost & diseases of crops.www.biotech-int.com**BIOBIUM / RHIZO-ENRICH****Technical Name :** *Rhizobium***Formulation :** SL/GR/WP**Activity :** Nitrogen fixing bacteria for leguminous crops.**BIOSULF / SULF-CURE****Technical Name :** *Thiobacillus thiooxidans***Formulation :** SL/GR/WP**Activity :** Improve up take of Sulphur and other essential plant nutrient. Good growth of plant and improve quality of produce.**BIOZINC / ZINC-CURE****Technical Name :** Zinc solubilizing bacteria**Formulation :** SL/GR/WP**Activity :** Improve plant growth in Zn deficient soil and improve soil pH and up take of other essential micronutrient. Control Khara disease in paddy.**BIONPK / BHARPUR****Formulation :** SL/GR/WP**Technical Name :** Consortium of *Bacillus magaterium*, *Azospirillum* and *Frateruria aurentia* microorganisms.**Activity :** Improve overall growth and yield of crop; improve soil fertility and improve soil pH and up take of all essential elements.**BIOSILICA****Technical Name :** *Bacillus* spp.**Formulation :** SL/GR/WP**Activity :** Solubilize silica and make it available to the plants. Makes cell wall thick and increases the size of vascular bundle and take up more water & nutrients.**BIOSTIMULANTS****BIOBOOST & BIOBOOST TURF****Technical Name :** Contains Natural hydrolyzed proteins of vegetable origin**Formulation :** SL & GR**Activity :** Excellent plant nutrition & growth promoter.**BIOSEA - SEAWEED EXTRACT****Technical Name :** The product is based on *Kappaphycus* spp., *Gracilaria salicornia* and *Gracilaria Edulis***Formulation :** SL**Activity :** Rich in Plant Growth Hormones, Amino Acids, Macro and Micronutrients, Auxins, Cytokinins and Gibberellins resulting in excellent plant health and vigour.www.biotech-int.com**PUBLIC HEALTH**
BIOLARVICIDES

INTEGRATED VECTOR MANAGEMENT

BACTICIDE WP**Technical Name :** *Bacillus thuringiensis* var. *israelensis***Formulation :** WP**Activity :** Acts on 1st /2nd /3rd instar larvae of various mosquito species e.g. *Culex*, *Anopheles* *Cluistetta*, *Psorophora*, *Uranotaenia*, *Mansonia*, Vectors of Malaria, Filariasis, Japanese Encephalitis and Nuisance mosquitoes.**BACTICIDE DT****Technical Name :** *Bacillus thuringiensis* var. *israelensis***Formulation :** DT**Activity :** Acts on 1st /2nd /3rd instar larvae of various mosquito species e.g. *Culex*, *Anopheles* *Cluistetta*, *Psorophora*, *Uranotaenia*, *Mansonia*, Vectors of Malaria, Filariasis, Japanese Encephalitis and Nuisance mosquitoes.**BACTICIDE AS****Technical Name :** *Bacillus thuringiensis* var. *israelensis***Formulation :** AS**Activity :** Acts on 1st /2nd /3rd instar larvae of various mosquito species e.g. *Culex*, *Anopheles* *Cluistetta*, *Psorophora*, *Uranotaenia*, *Mansonia*, Vectors of Malaria, Filariasis, Japanese Encephalitis and Nuisance mosquitoes.**BILNET****Technical Name :** Insecticide Treated Bednets**Material :** Polyester, Nylon, Cotton**Activity :** Prevents man-mosquito contact to combat Malaria, Filariasis, Dengue & Japanese Encephalitis. Very useful in high rainfall, water logged areas with multiple breeding sites, high vector densities, forests, rivers, difficult terrains, streams and seepages.

AS: Aqua Suspension, GR: Granular, WP: Wettable Powder, SL: Soluble Liquid, DT= Dispersible Tablet, EC = Emulsifiable Concentrate
